About the expo:

All key buyers

State and private buyers of specialized equipment and commercial vehicles in one place

b2b-sessions

For exhibition participants on procurement-related matters

Supplier day

With the participation of major infrastructure companies and industrial groups

Russian Special Equipment Forum

More than 30 events as part of the business program

«Made in Russia»

Special exposition

50 000m²

Exhibition space

200+

Participants from 10 countries around the world

>10 000

Industry-specific visitors

Visitors to the A8 Machines of Russia Exhibition:

- ◆ Member companies of the National Association of Infrastructure Companies (NAIK): National Project Construction Group (GK "Natsproektstroy"), JSC DSK Avtoban, JSC Mostostroy-11, LLC Transstroymekhanizatsiya, BAM Construction Management Group (UK "Bamstroymekhanizatsiya"), JSC MSU-1, ABZ-1 Group, JSC Donaerodorstroy, JSC Mostotrest-Service, JSC Tsentrodorstroy
- ◆ Large construction and infrastructure companies, industrial holdings, and enterprises
- ◆ Leading real estate developers, freight and passenger transportation operators, and mining industry enterprises
- ◆ Senior officials from federal ministries and agencies – Ministry of Industry and Trade of Russia, Ministry of Transport of Russia, Ministry of Construction of Russia, Ministry of Emergency Situations of Russia; State companies and corporations – Rosatom State Corporation, Avtodor Group, JSC GTLK, Russian Post (JSC), Aeroflot (JSC), Russian Railways (JSC), Rostec State Corporation
- ◆ Companies operating in the housing and utilities sector (HUS), marketplaces, retail and logistics companies

Prerequisites for the Exhibition

01

A six-year plan for the development of the road network has been approved – to bring 85% of federal highways and backbone roads up to regulatory standards.

03

A preferential leasing program for utility and road construction equipment has been launched, developed by the Ministry of Industry and Trade of the Russian Federation and the state company DOM.RF: ₪50 billion in funding until 2030.

Conclusion:

Infrastructure development plans require the provision of necessary construction resources, special-purpose machinery, and transportation. A regular and high-quality dialogue is needed between manufacturers and both state and private customers.

02

Active Design and Survey Works (DSWs) are being carried out, which will result in major infrastructure projects across the Russian Federation

04

Promising infrastructure projects: Northern Latitudinal Railway, more than 50 high-speed bypass roads around major cities, and the “Dry Port Yekaterinburg” transport and logistics hub.

The A8 Machines of Russia Exhibition is a platform for direct dialogue between government bodies, manufacturers, and buyers.

A8 MACHINES OF RUSSIA

Exhibition Organizers

The event is organized by the National Association of Infrastructure Companies (NAIK) and A8Expo.

НАИК

НАЦИОНАЛЬНАЯ АССОЦИАЦИЯ
ИНФРАСТРУКТУРНЫХ КОМПАНИЙ

The National Association of Infrastructure Companies (NAIK) was established in 2021 with the support of the Russian Union of Industrialists and Entrepreneurs (RSPP).

NAIK unites the largest companies in the field of transport construction and represents over 6,500 infrastructure projects in Russia and other countries.

The association is actively engaged in supporting the industry, including addressing workforce challenges and infrastructure project financing.

NAIK member companies include:

JSC National Project Construction Group (Нацпроектстрой), JSC DSK Avtoban, JSC Mostostroy-11, LLC Transstroymekhanizatsiya, LLC Road Construction Company, JSC Roads and Bridges, BAM Construction Management Group (UK Bamstroymekhanizatsiya), JSC MSU-1, ABZ-1 Group, JSC Donaerodorstroy, JSC Mostotrest-Service, JSC Tsentrodstroy, and others.

A8^{expo}

A8Expo is an international exhibition operator.

A8 MACHINES OF RUSSIA

Exhibition Sections

01

Specialized equipment for road construction, road repair, and maintenance

02

Specialized equipment and machinery for civil and industrial construction

03

Mining equipment and machinery

04

Municipal equipment

05

Commercial vehicles

06

Attachments for specialized equipment

07

Components and spare parts for machines and mechanisms, service, lubricants

08

Production of construction mixtures and materials

Exhibition participation options with a booth:

Unfurnished booth in the outdoor exhibition area:

- ◆ Opportunity to participate in the "Made in Russia" section
- ◆ Option to install a tent (5×5 meters)
- ◆ Possibility to connect electricity, install furniture

Unfurnished booth inside the pavilion:

- ◆ Opportunity to participate in the "Made in Russia" section
- ◆ Option to reserve a meeting room (Standard or Exclusive booth construction)
- ◆ Possibility to connect electricity, install furniture, and lay carpet

Furnished booth inside the pavilion:

- ◆ Standard booth construction
- ◆ Exclusive booth construction

What exhibitors receive

Access to **over 10,000** industry-specific visitors

Participation in **Supplier Day:** direct dialogue with major infrastructure companies and industrial groups

Participation in **B2B meetings** for exhibitors on procurement-related matters

Participation in the **Business Program** (over 30 events)

Opportunity **to speak on the main stage** of the Russian Special Equipment Forum with a presentation

Opportunity to participate **as an Exhibition Partner** (6 partnership packages available)

Opportunity to participate **as a Business Program Partner** (4 partnership packages available)

Access **to exclusive closed-door events** of the exhibition

Invited participants

Government authorities

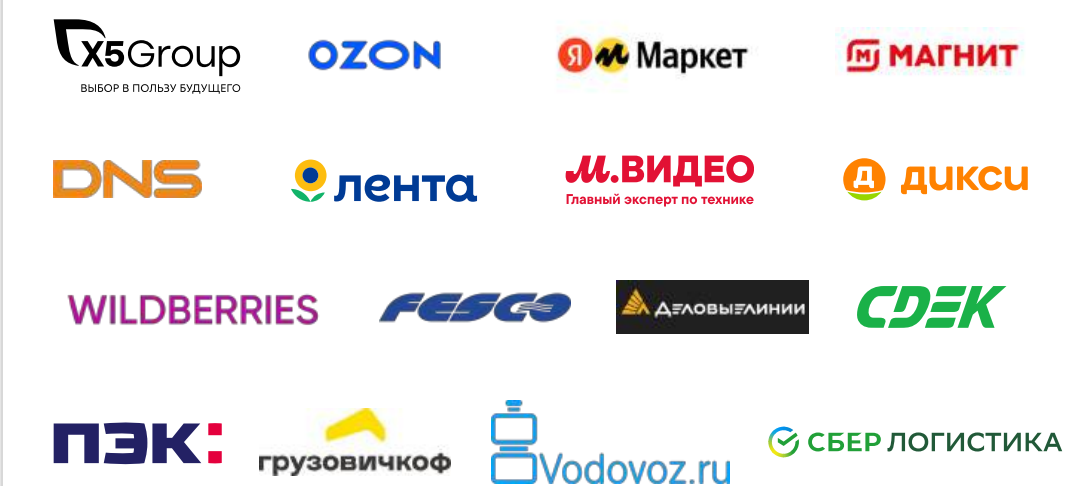

Industrial companies

State corporations and companies with state participation

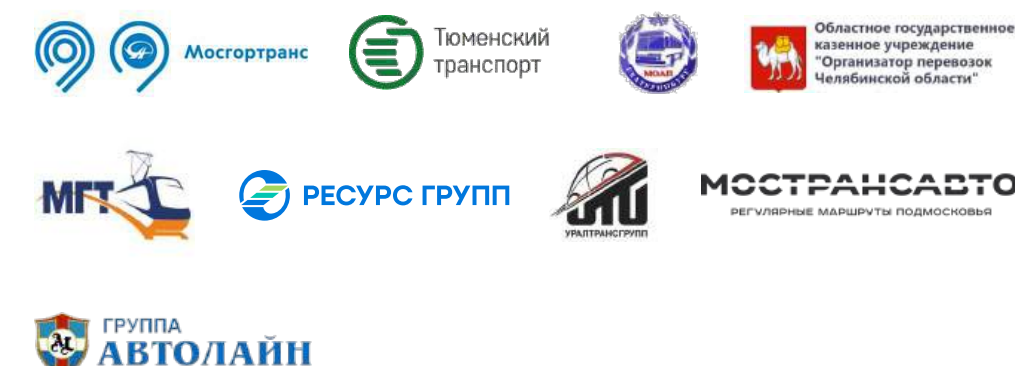

Marketplaces, retail and logistics companies

Construction companies

Passenger transport operators

Road construction and infrastructure companies

Exhibition business events

Key events

Business Breakfast with the Minister of the Russian Federation (by agreement)

VIP tour of the exhibition featuring booths of special equipment manufacturers

Strategic Plenary Session: "Russia's Priority Infrastructure Projects Through 2030 and Market Demand for Special Equipment"

Major Conference
"Made in Russia"

Russian Special **Equipment Forum**

Forum: "Supplier Day"

Forum: "Automation and Robotics in Special Equipment: AI and Unmanned Technologies"

Forum: "Industrial Design and Engineering: How to Create a Product That the Market Needs"

Session: "Programs and Tools for Financing Special and Commercial Equipment"

Industry-specific events

Conference: "Road Construction Equipment: An Open Dialogue with the Customer"

Conference: "Investment Projects in the Mining and Oil & Gas Sectors: Major Special Equipment Buyers on Their Choices and Corporate Priorities Through 2027"

Panel Discussion: "Importing Special Equipment for the Russian Market: Key Needs and Major Infrastructure Projects Through 2030"

Roundtable: "Key Priorities in the Development of Special Equipment for Public Utilities. What's Next?"

Business Dialogue: "Production of Components and Spare Parts for Special Equipment"

Conference: "Bus Transport in the Modern Transportation System"

Roundtable: "Freight Transportation Companies: Major Market Players on Industry Prospects"

Special Track: "Procurement of Special Equipment on Marketplaces"

Off-stage events

National Road Construction Equipment Operators' Competition 2025. Organizer: NAIK. Supported by: Avtodor State Company, Federal Road Agency (FDA)

SPECIAL MACHINERY AWARDS Ceremony: Honoring winners of the industry award

Test Track: Test drives and demo shows of machinery and special equipment from exhibition participants

Hands-On VR Zone: Operating self-propelled and unmanned machinery using VR headsets

Gala Dinner (by invitation only)

A8 PROCUREMENT: B2B meetings within dedicated working groups

In conjunction with the exhibition, the third National Contest of road construction equipment operators will take place

The competition will be held on **September 8-9, 2025, in Yekaterinburg**, on the site adjacent to the exposition of the exhibition A8 MACHINES OF RUSSIA

Organizer:

Supported by:

ФЕДЕРАЛЬНОЕ ДОРОЖНОЕ АГЕНТСТВО
РОСАВТОДОР

МИНСТРОЙ
РОССИИ

Competition Objective:

To strengthen the industry's human resources and elevate the prestige of the road construction profession.

The National Operators' Competition places a strong focus on attracting young professionals into the sector. Special emphasis is placed on the Youth Track, which aims to unlock the potential of the next generation of operators.

In 2024, the Competition acquired international status, received a Best BRICS Solutions Award, and was recognized among the best practices in workforce development and skills advancement.

Operator teams from leading road construction companies – using equipment from both domestic and international manufacturers – will compete for the title of the best in the profession.

In 2025, the competition will welcome participants from top road construction companies in the Russian Federation, Republic of Belarus, People's Republic of China, Republic of Kazakhstan, Republic of Türkiye, and other countries

**A8 MACHINES
OF RUSSIA**

Operators will demonstrate their skills in six disciplines:

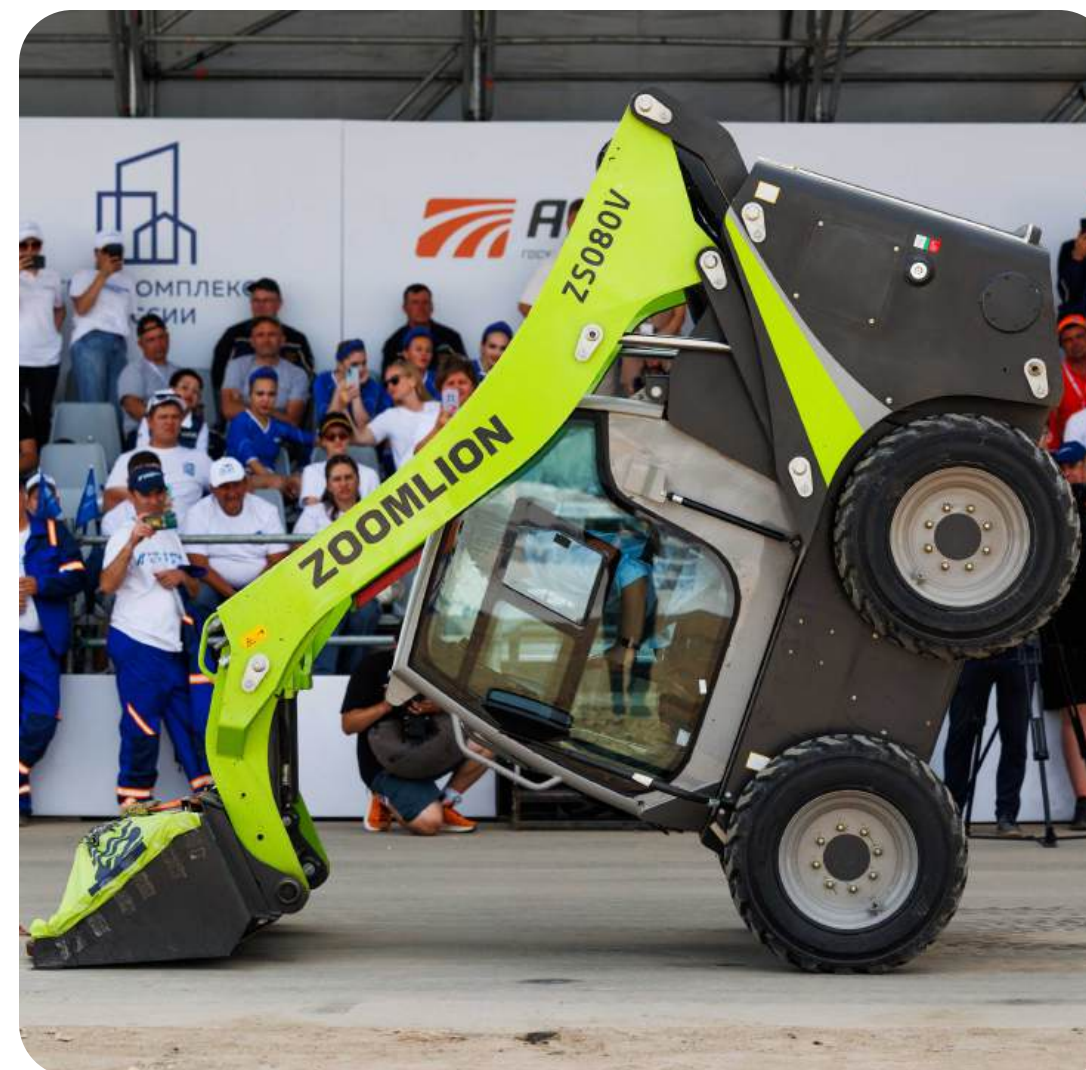

- ◆ Bulldozer
- ◆ Grader
- ◆ Excavator
- ◆ Front Loader
- ◆ Dump Truck
- ◆ Municipal Road Machine

The competition is held in two age categories:

- ◆ "Young Professionals" (under 23 years old)
- ◆ "Professionals" (23 years old and above)

Participation options:

- ◆ Providing equipment for participation in the competition – 2 units (according to the selected discipline)
- ◆ Participation of equipment in the show program (test drive)

Invited Guests

Nikitin Andrey Sergeevich

Minister of Transport
of the Russian Federation

Roman Vitalyevich Novikov

Head of the Federal
Road Agency

Vyacheslav Petrovich Petushenko

Chairman of the Board, Avtodor
State Company

Evgeny Ivanovich Ditrikh

General Director, State Transport
Leasing Company (GTLK JSC)

Maria Vasilievna Yarmalchuk

General Director, National Association
of Infrastructure Companies

Alexey Andreevich Krapivin

General Director, National Project
Construction Group (Naцproektstroy)

Nikolay Alexandrovich Russu

General Director,
Mostostroy-11 JSC

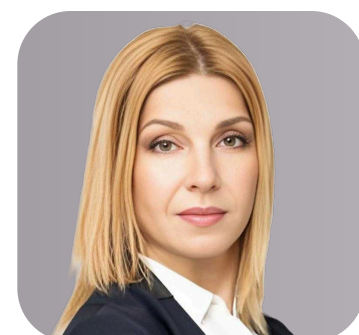

Yulia Mikhailovna Shtrek

General Director,

General Director,
Transstroymechanizatsiya LLC

Vladimir Valentinovich Kalinin

President, ABZ-1 Group

Roman Novikov

Head of the Federal
Road Agency

Welcome Address

Dear colleagues,

On behalf of the Federal Road Agency, I am pleased to welcome the participants, organizers, and guests of the Third National Competition of Road Construction Equipment Operators.

Skilled labor is undoubtedly the foundation for delivering large-scale infrastructure projects, including key initiatives implemented by order of the President of Russia.

This year, the road transport industry faces new challenges. The country's leadership has defined new goals and objectives, which we will achieve as one united team.

In 2025, the national project "Infrastructure for Life" was launched. By the end of 2030, at least 60% of regional roads must meet regulatory standards, as well as 85% of federal highways, roads in major urban agglomerations, and the national backbone road network. Large-scale work is underway to build bypasses around population centers and to develop international transport corridors such as North-South, West-East, and the Russia route. We have everything needed to fulfill these ambitious projects: experience, technology, and—most importantly—people who are dedicated to their profession.

The work of machinery operators is one of the most vital in the road construction sector. They do more than operate machines—they build infrastructure that connects cities and regions, responding to the needs of society. The National Competition offers these specialists a unique opportunity to demonstrate their skills, exchange experience with colleagues, and discover the latest industry technologies. Moreover, the competition helps foster a strong and unified team of professionals who are ready to take on the most demanding challenges.

I wish all participants confidence, fair competition, brilliant victories, and new achievements! I am confident that your talents and pursuit of professional excellence will lead us to even greater heights!

Vyacheslav Petushenko

Chairman of the Board,
Russian Highways (Avtodor)

Welcome Address

Dear participants, guests, organizers, and partners of the competition!

On behalf of the state company Russian Highways (Avtodor), I welcome you to the Third National Competition of Road Construction Equipment Operators—an event that is strengthening its position year after year as the main platform for professional excellence in the road construction industry!

Last year, we witnessed a historic moment: the competition gained international status, bringing together 24 teams from Russia, Belarus, China, and Kazakhstan under one banner. Recognition by the BRICS award and its inclusion in the list of best industry practices were a well-deserved result of our collective efforts.

Today, we are already seeing a growing interest in the competition from both participants and the international professional community. The geography is expanding, the number of applications is increasing, and the program is becoming richer. This means that the prestige of working professions continues to rise, and the skill level of participants is reaching new heights.

We take particular pride in the participation of young professionals under the age of 23, who are proving to be worthy rivals to seasoned veterans. Thanks to the support of Russia's Construction Complex, the Ministry of Transport, and the Ministry of Construction, this competition is becoming a true talent factory for the entire industry.

This year, participants will once again demonstrate their skills in the most challenging disciplines. There is no doubt that our machinery operators are ready for any task! Your professionalism, perseverance, and dedication are the foundation on which the future of the road construction sector is being built.

I wish all participants a fair competition, new accomplishments, and outstanding victories! May this competition become a springboard to new professional heights for you!

Competition participation options:

01

Providing equipment for participation in the Professional Category of the Competition

Participants:

30+

major road construction companies

120+

professionals

02

Providing equipment for participation in the Young Professionals Category of the Competition

03

Providing equipment for the show program (test drive)

Official Opening / Closing Ceremony of the Competition and demonstration performances
